

Chemical Dosing Tanks & Bunds

Specially designed for the water treatment and purification industry, the range of chemical dosing tanks & bunds are suitable for a wide range of chemicals. All Aqua products are designed and manufactured to the highest standards

- One-piece moulding with smooth internal and external surfaces
- Manufactured from medium density UV stabilised linear polyethylene
- Split level top design (excluding 25 ltr) gives extra strength and provides an area for mounting chemical dosing pumps & agitators.
- Supplied with screw caps for safety
- The range of purpose made bunds are made to take 110% of the relevant dosing tank capacity. Bunds are designed to be stackable for efficient transportation and storage
- Supplied as standard in natural polymer
- Other colours are available upon request subject to quantity. Prices are available. Please enquire.

Tank Options

Order Code	Model	Capacity Ltr	Dimension (mm)		Weight kg
			Diameter	Height	
ADTANK0025	WT25	25	340x250	355	3
ADTANK006	WT50	50	425	500	4
ADTANK010	WT100	100	500	680	8
ADTANK020	WT200	200	655	795	11
ADTANK030	WT300	300	655	1030	17
ADTANK050	WT500	500	800	1160	21
ADTANK100	WT1000	1000	1065	1355	35

Tank aperture
 50, 100, 200, 300 Ltr = 134mm
 500, 1000 Ltr = 200mm
